April 5th, 2017

Dear Resident/Property Owner,

Please be advised that on March 6th, 2017, the Town of Petawawa awarded the contract for Civic Center Road Reconstruction – Phase 3 to RGT Clouthier Construction Ltd. This phase of the project includes the reconstruction of Civic Center Road from Highland Park Drive to Leeder Lane. The project is scheduled to begin construction on July 4th, 2017 and is anticipated to be completed by August 4th, 2017.

The project works will include new curbs, sidewalks, storm sewers, paving, street lighting and landscaping.

Civic Center Road between Highland Park Drive and Leeder Lane will be closed to traffic during this time, however, access to the Petawawa Centennial Health Center will be available at all times. The figure below shows the area of construction as well as the 2 detour routes that will be posted to provide access to Laurentian Drive and Leeder Lane.

Properties located adjacent to the limits of construction should be receiving a notification from D.R Siegel Insurance Adjusters, on behalf of RGT Clouthier Construction Ltd. requesting authorization to complete a pre-construction inspection of their private property. Property owners are encouraged to schedule this free inspection prior to the start of construction, and should be advised that these inspections will only be performed at the discretion of individual property owners or their representatives. This inspection is completed to provide a baseline of the condition of the house prior to the commencement of construction. It would only be referred to should a resident feel that damage was done to their house as a result of the construction activity.

Please be advised that the Town of Petawawa has retained the engineering firm of Jp2g Consultants Inc. to complete the contract administration and on-site inspection services required by this project. We encourage residents or property owners to contact Roch Blaskovits or Steve Webster from Jp2g Consultants Inc. at 613-735-2507 or by email at rochb@jp2g.com, steve@jp2g.com should you have any questions or concerns relating to this project during the course of construction.

We appreciate your patience and cooperation throughout the construction project.

Respectfully,

A handwritten signature in blue ink, appearing to read 'D. Unrau', is positioned above the typed name.
